It was, bevend doubt, the largest and most imposing political procession ever gotten up any where in Indiana. Its length has been variously estimated at from four to six miles. In attributing such valuable Medical properties to this remedy, no rash or unwarrantable assertion is made, but is simply stated a fact; proven undeniably and conclusively the extraordinary cures, and benefits derived from its use, under the direction of its illustrious originater, Dr. Hoofland, among all classes of European society and from the immense mass of testimony, from all parts of the American continent, accumulated during the last teachers in the hands of the present proprietor. st ten years, in the hands of the ast ten years, in the hands of the present prop. Inst ten years, in the hands of the present proprietor.—
The provalence of disease to which the German Bitters are adapted, it is with sorrow we say it, is almost univeral, indeed there is scarcely r family throughout the whole extent of our country to which there cannot be found among its members that poculiar sallow and languid appearance, denoting a diseased Liver, or an emaciated and suffering Dyspeptic.

Then of what immense importance to this class of invalids, that a certain and reliable remedy, should be placed within their reach, one in which no baneful or injurious drug enters into its composition; a remedy on which the patient can rely with the utmost confidence and certainty and be assured from actual and tangible proofs, that the article he is using really possesses the virtues attributed to it. Such a remedy, is "Heefand's German Bitters." Thousands of dollars have been expended in its manufacture and diffusion throughout all parts of this continent, and the proprietor faces the greatest satisfaction in stating, that inere is no State, county, or even village where the Medicine has been introduced that there cannot be found pumbers, willing to testify to its virtues.
